## DETAILED ACTION

1. In response to the Communication dated March 14, 2005, claims 64-84 are active in this application.

### ***Information Disclosure Statement***

2. The information disclosure statement filed March 14, 2005 has been considered.

### ***Allowable Subject Matter***

3. Claims 64-84 are allowable over the prior art of record.
4. The following is an Examiner's statement of reasons for the indication of allowable subject matter: the prior art of records does not show (in addition to other elements in the claim) the following:
  - ❖ Determining the multi-state data content of said storage element to a second resolution less than said first resolution by forming a composite of said plurality of values of said parameter individually stored at the first resolution.
  - ❖ Averaging circuitry coupled to the sense amplifier for individually storing multiple independently determined values of the parameter supplied from the sense amplifier at the first resolution and forming a composite multi-state data value of a second resolution less than the first resolution for the single cell formed from said multiple independently determined values of the parameter supplied from the sense amplifier at the first resolution.

- ❖ Wherein the selected storage elements are sensed a plurality of times for each of one or more second sets of bias conditions which differ from the first sets of bias conditions, and determined the data content of the selected storage elements from a combination of the sensing in the first mode and the sensing in the second mode.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael T. Tran whose telephone number is (571) 272-1795.
7. Any inquiry of a general nature or relating to the status of this application should be directed to Group receptionist whose telephone number is (571) 272-1650.
